

OSR Aphid and CSFB Monitoring 2019

Contact name

Invoice Address

Telephone No. (inc. STD)

Mobile phone No. (optional)

Email Address for results to be sent to:

Please indicate the number of new traps you require and the numbers of pots and prepaid envelopes you require for returning samples. A monitoring protocol will be provided when the equipment is sent out to you or please contact us for further information.

Please note: four traps are required per field if you wish to monitor CSFB against published thresholds. Only one trap is required if you are only monitoring for aphids or if you are not interested in comparing numbers of CSFB with thresholds. If you are running four traps per field, you can pool the samples and you will only be charged for sample processing for one sample for the field.

Number of traps required	Number of pots required	Number of prepaid envelopes required
